PROFESSIONAL EXPERIENCE

NeoForm Solutions — Atlanta, GA
Data Automation Specialist

Jan 2025 – Apr 2025

- Developed Python scripts to automate and validate high-volume data entry processes across CRM and Excel systems.
- Collaborated with cross-functional teams to implement an automated client intake form using Google Forms and Google Apps Script.
- Designed real-time dashboards using Power BI to monitor data accuracy and intake rates across departments.
- Automated data entry workflows using Python (pandas, openpyxl) to read, clean, and validate Excel files; flagged missing fields and formatting issues, reducing manual input by 75% and improving data accuracy.

FAAD Operator — Iraq, Israel, Gaza, Syria
U.S. Army Assignment

Nov 2023 – Dec 2024

- Operated sensor feeds for cyber/kinetic threat detection across international zones.
- Built Python-based machine learning models using scikit-learn to detect anomalies in sensor data, reducing false positives and alert fatigue in real-time monitoring environments.
- Used OpenAI and Python to automate log parsing and generate real-time incident reports, improving situational awareness.

Zaxby's Franchise, LLC — Athens, GA
Financial Operations Analyst

Apr 2023 – Nov 2023

- Analyzed financial data across 300+ locations using Python; streamlined reporting workflows.
- Automated validation processes using Excel VBA and Power BI.
- Built Tableau dashboards for revenue insights and predictive trends.

Pilot International — Warner Robins, GA
Marketing Analyst

Dec 2022 – Mar 2023

- Developed SQL reports and automated data collection for marketing content analysis.
- Used SEO/web scraping to optimize digital performance.
- Edited and reviewed digital content in adherence to brand strategy.

Cognizant — Remote
Salesforce Analyst

Mar 2018 – Oct 2022

- Ensured CRM data integrity using Python validation scripts.
- Generated Excel/Tableau reports on user engagement and system health.
- Supported secure data access policies and mitigated risks with IT/compliance teams.

ADDITIONAL INFORMATION

- Eligible for DoD/ITAR roles (Active Clearance)
- U.S. Citizen
- Available for relocation or remote work
