VINCENT S

React Developer

(252) 276-8900   vincentsm703@gmail.com   https://linkedin.com/in/vincent-stlouis/   CHARLOTTE, NC 28208

SUMMARY

Builds robust and scalable software applications by following industry-standard coding practices, writing thorough unit and integration tests, and developing reliable deployment pipelines. Highly skilled in front-end engineering with a strong foundation in object-oriented JavaScript and modern frameworks including React (with Redux, MobX, RxJS), Angular, and Vue. A self-starter who approaches problems from the user's perspective, contributing across the full lifecycle from design and requirements gathering to performance tuning and long-term maintainability.

SKILLS

React.js, JavaScript, AngularJS, Next.js, React Native, TypeScript, TailwindCSS, Storybook, Figma, Node.js, Express, GraphQL (Apollo, Relay), RESTful API integration, Jest, React Testing Library, Cypress, Webpack, Vite, Rollup, CI/CD pipelines, Git

EXPERIENCE

Full-Stack (React focused) Developer
GovSpend

Remote
02/2021 - Present

· Designed modern and fully functional software using ES7+ JavaScript and React
· Architected and developed web applications, systems, and infrastructure in NodeJS and MongoDB
· Worked constructively with the development team to achieve goals by deadline

Software Engineer Instructor
Kenzie Academy

Remote
03/2020 - 02/2021

· Delivered live instruction on frontend (React Native) and backend technologies to over 200 students
· Managed a team of associate instructors and facilitators, providing daily support and mentorship
· Partnered with the learning sciences department to continuously improve curriculum content and delivery
· Provided instructional coaching and operational guidance to teaching staff across multiple cohorts

Tech Lead
Toptal

Remote
04/2017 - 02/2020

· Built an internal inventory tracking tool using React Native, barcode scanning, and on-device machine learning
· Created a local "bar hopping" experience using react native, NestJS and Postgres
· Built a mobile app that connects users to grocery providers for meal planning, spoilage tracking, and order placement
· Created a cross-platform wedding planner using NextJS and React Native with 95 percent code reusability across platforms
· Built the first generation of a fitness app using React Native that connects wirelessly to sensor devices for workout tracking
· Managed over 20 teams in a tech lead capacity
· Worked with product owners and design teams to develop complex projects from startups to Fortune 500 companies
· Led daily standups, identified training needs, wrote reports, and assessed individual performance

Software Engineer
Bank of America

Charlotte Metro
08/2016 - 07/2017

· Utilized Node and React to build the next generation of an internal system used for building, deploying, analyzing, and caching bankofamerica.com
· Introduced observable state and container/template patterns to reduce unnecessary re-renders and improve performance
· Reduced deploy-to-production times from over 1 hour to under 1 minute by optimizing infrastructure and architecture

Software Engineer
Red Ventures

Charlotte Metro
06/2015 - 08/2016

· Integrated with Facebook Messenger using their alpha Node.js client and connected it to the existing live chat platform via Redis and NSQ
· Developed features and maintained components of a real-time chat application including the customer-facing chat client and backend event handling
· Designed and implemented a modular, socket-based, real-time sales platform used by sales agents

Software Engineer
Independent Living Bullion

Charlotte Metro
10/2013 - 05/2015

· Developed information systems by designing, developing, and installing software solutions
· Evaluated requirements, defined problems, and proposed and implemented effective software solutions
· Studied modern tools, development techniques, and emerging technologies to stay current
· Participated in educational opportunities, professional organizations, and knowledge sharing
· Handled development and service issues with care and discretion

EDUCATION

B.S. in Software Engineering
University of North Carolina at Charlotte

2011 - 2013

A.S. in Science
Central Piedmont Community College

2008 - 2010
